SLAYER ESPRESSO

In 2007 Slayer Espresso was birthed with only one mission: *Make Coffee Better*. That mission is ongoing and unwavering.

Created by coffee professionals for coffee professionals, Slayer exists to create the best coffee experience for the barista, technician and guest. Handcrafted from Seattle, Slayer is intentionally designing to be elegant from every angle.

Our revolutionary products have been provoking innovation in coffee and elevating the worldwide standard for specialty.

- * For specific color request, please consult Slayer's personnel
- * For "Glass option", please indicate the finish of Clips & Rails

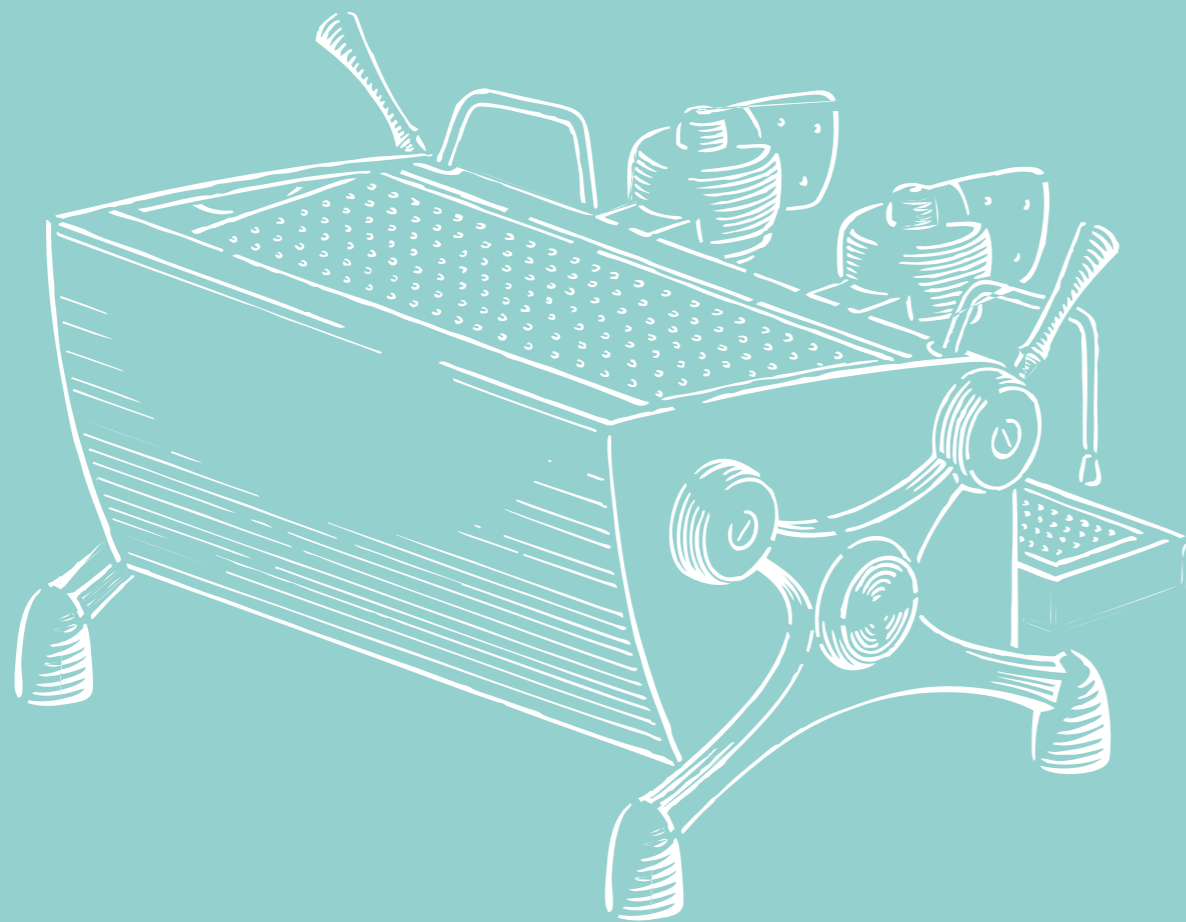

THE NEW EXTRACTION

Slayer Espresso is the gateway to flavor profiling.

Patented flow control, enabled by a precision needle valve gives you the ability to manipulate and transform the flavor of espresso. With pre-brew, Slayer Espresso accepts - even prefers - a range of particle size that no other machine can tolerate.

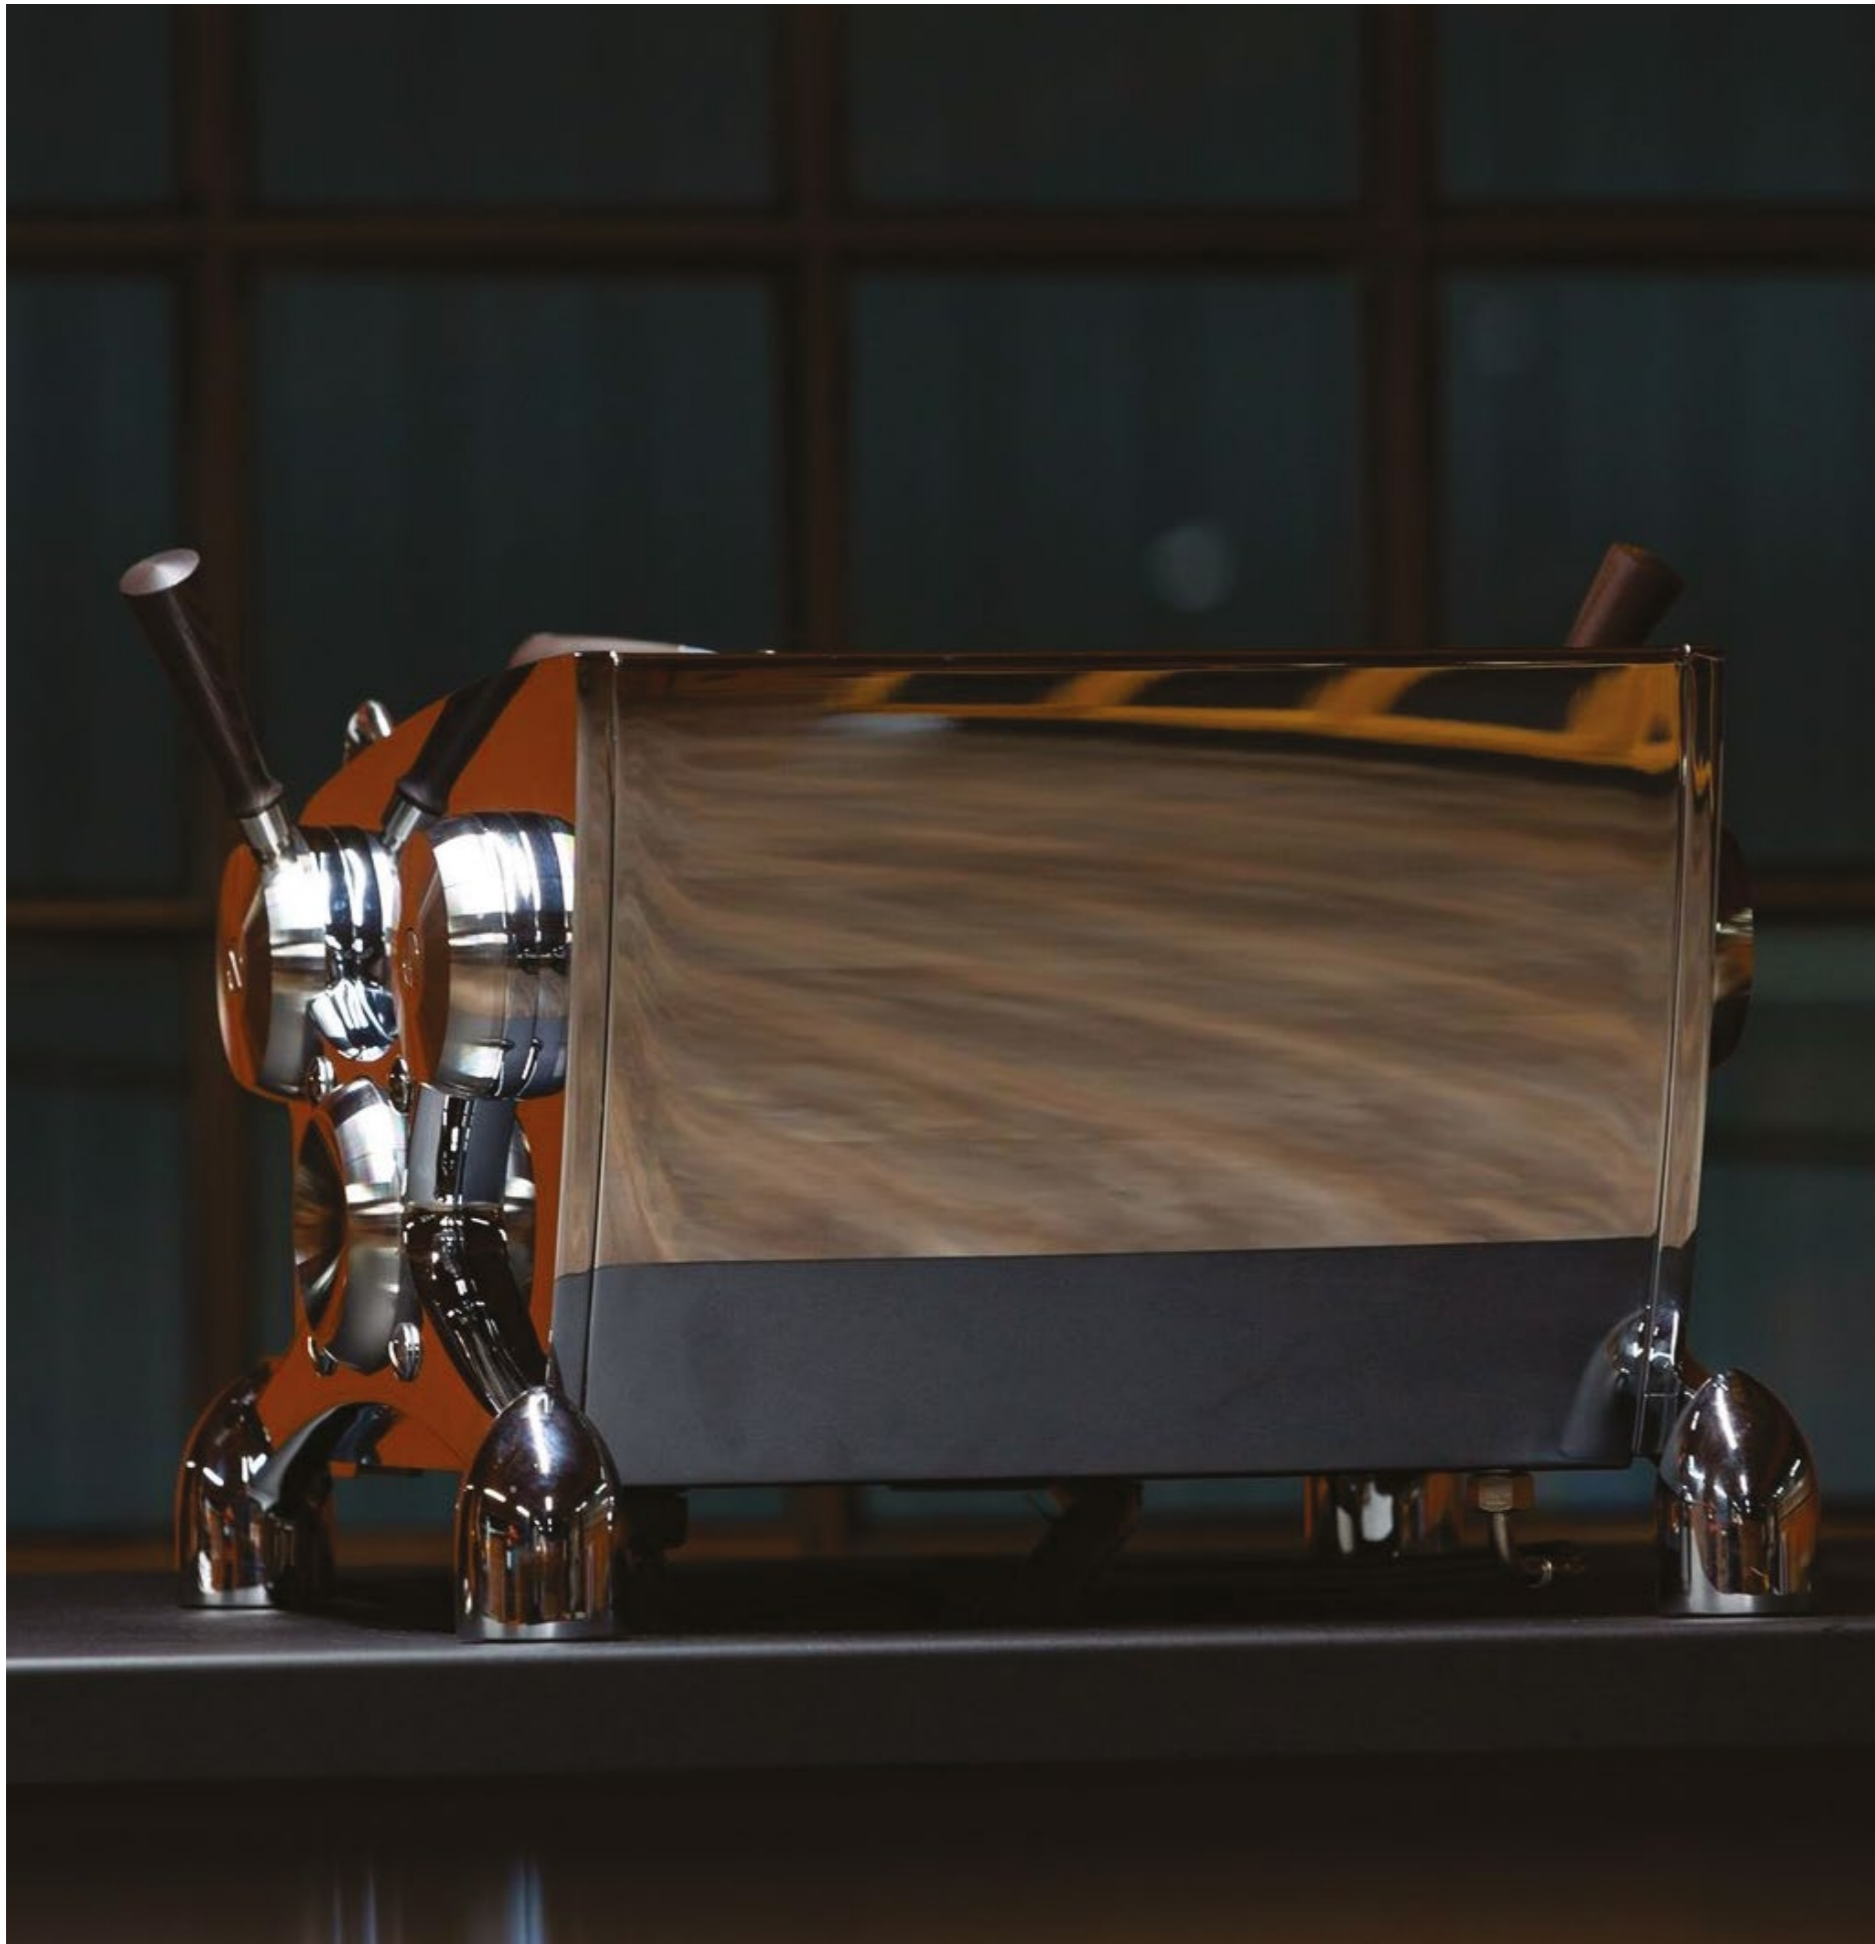

This manual technique creates real, perceptible changes in taste and aroma. It is no mere stunt of engineering.

BACK PANEL OPTIONS

BACK PANEL OPTIONS

	WHERE	HOW	PRICE (USD)		
			1 GROUP	2 GROUP	3 GROUP

ELEGANCE IN ACTION

Some equipment is meant to go unnoticed or to remain hidden, but the espresso machine is a stage.

Slayer invites baristas to participate in the theater of making coffee for their customers.

Hand-crafted components and highly customizable features combine to create an unforgettable experience on both sides of the bar.
